

# VVR – Recommended installation

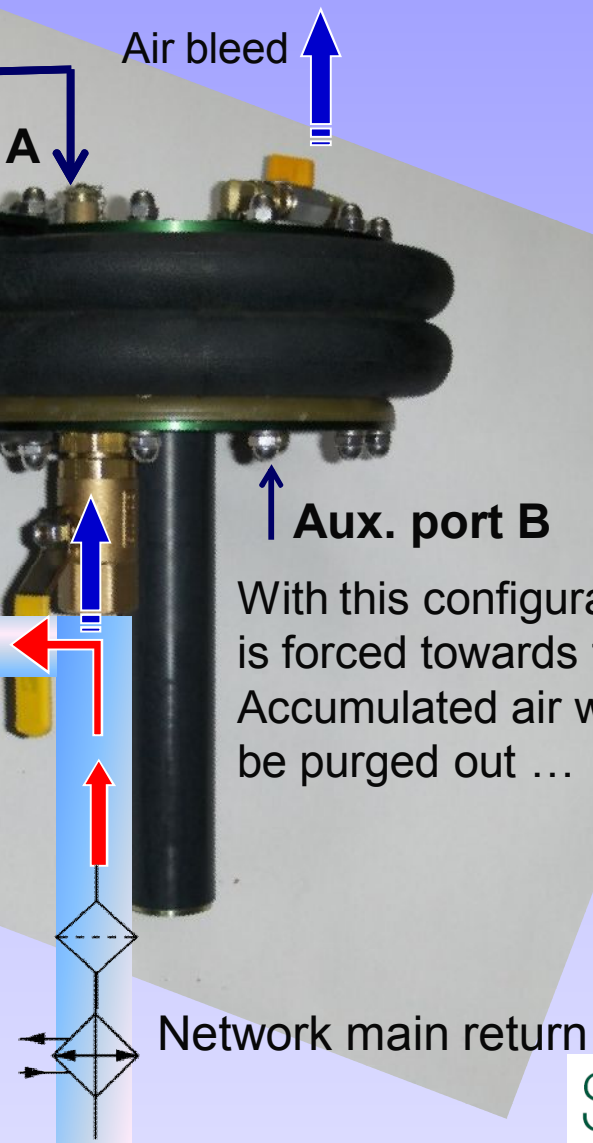

SAE-12 auxiliary port (A)

\*\*Parker EZ form  
7219 series  
or equivalent

Pump / motor case drain return  
line can be routed to the VVR's top  
cover SAE-12 port (A) through a  
flexible hose\*\* or at the auxiliary  
SAE-16 port (B)

With this configuration, returning air  
is forced towards the VVR.  
Accumulated air will gather, ready to  
be purged out ...

VVR— Recommended Installation  
with air separator
